To understand each other it is necessary that there is an interaction, a feedback. When you talk to someone it goes only one way. For him to understand you, he need our minds to be connected. We are not related to the horse spirit so we only understand the horse spirit studying it.

So humans share a human spirit together. My mind is connected to the human mind. We are a community because our minds are connected.

We are also bound with dreams that continue to make dead's spirit exists, so that their wills feedback. Our dreams alert us to our environment, its dangers if we are negative, its assets if we are positive. Sometimes we may be surprised while dreaming. Dreams can project us into the future according to our life's goals. We scrutinize the unconscious of humanity with our dreams according to Carl Gustav JUNG.

Thus a plant can merge with another plant of the same lineage. Species can communicate with each other through reproduction. All this requires an everywhere order.
